B&T

Something new everyday

At B&T Design, we start each day with a simple question: “What can we do new today that will inspire people? As an outcome of this question, we not only design chairs, sofas, poufs and tables, but also looks, moods, emotions and feelings for inspiring spaces.

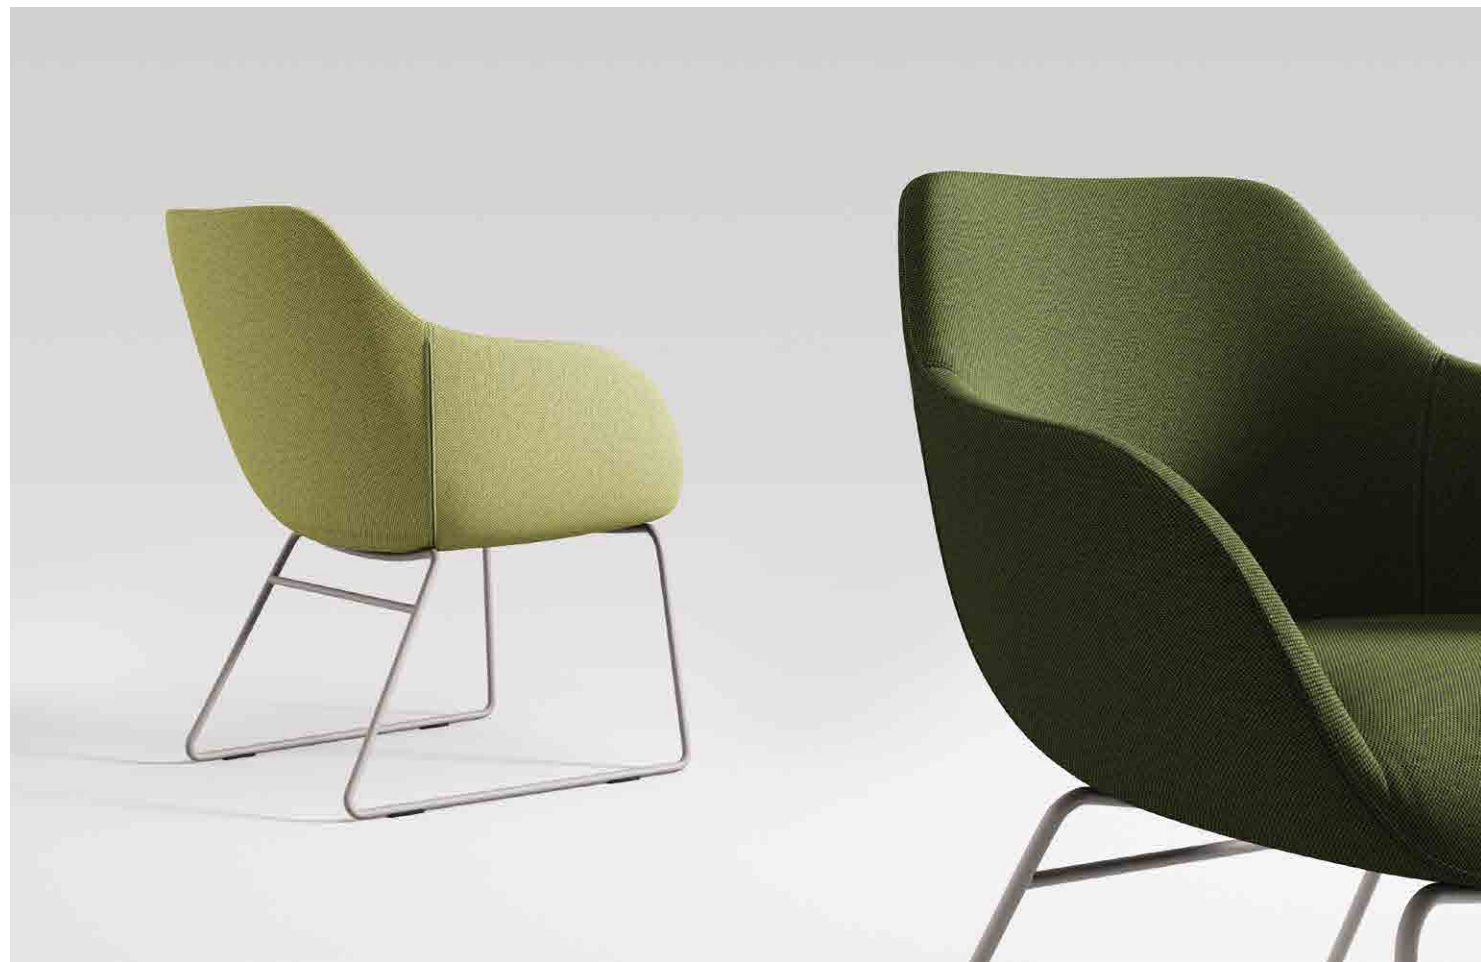

Design culture

Design is a contemporary search of simplicity for B&T Design.

Regarding the limits and needs of space, architectural approach, material, and the end-user,

B&T Design, designs with high functionality, high comfort, high quality and high aesthetics criteria reflecting equally to its products.

B&T Design focuses on the evolution of a self-generated image other than a “designed” look. The aesthetic simplicity of smart traces eventually creates the irreplaceable “right design” both for the user and space.

COLLABORATE WITH DESIGNERS

With our new
production plant
in Bulgaria, we are
more flexible and
reachable than ever.

To meet increasing demands and to
give service more flexible than ever,
we made a new investment in our
production capabilities and started
manufacturing in Plovdiv, Bulgaria.
With the new facility, upholstered and
wooden products will be produced
as a priority.

Sustain- ability

At B&T Design, we truly believe that environmentally friendly production is a must for a brighter tomorrow.

Hence, we produce all new designs in this respect and consider this fact greatly while making purchasing agreements with new suppliers.

We maintain our operations in a wide range of aspects in line with our company's sustainability strategy; from the design phase to the production process, from material choice to suppliers' resource management principles, controlled resource utilization to recycling policies.
